

## Main Features

- \* Provides USB connectivity to all MSRx Charge Regulators without a port
- \* Allows on-site commissioning with Micha Communications Software
- \* Connects to regulator Expansion Port or Comms Port
- \* No separate power supply required
- \* Supplied with software, ribbon cable and USB mini-B cable
- \* Temperature range: -5°C to +70°C
- \* Warranty: 2 years.

## Micha MSRx Communications Software

Used in conjunction with Micha Communications software, the USB Commissioning Port allows the user to check the status of the MSRx Charge Regulator, modify and upload regulation settings, alarm set, reset and delay settings, as well as create a status printout. (See datasheet <http://micha.co.uk/pdf/801681.pdf>)

Supplied with software on CD, 30cm ribbon cable for connection to the regulator, and a 1M USB mini-B cable.
